7. ADVANTAGES & DISADVANTAGES

Advantages
1. **Very interactive**
2. **Real time booking experience**
3. **Any type of users irrespective of computer knowldge and age can use it**

Disadvantages
1. **Now it is restricted to 3 regions**
2. **Bot has to learn over a period of time so requires more training**

8. APPLICATIONS

1. **Useful for any set of people**
2. **Bridges ap between customer to business and business to customers**
3. **Lite weight**
4. **Can be incorporated in mobile/website**

9. CONCLUSION

chatbots are computer applications powered by artificial intelligence to communicate with you. They are designed to mimic natural human conversation via an online chat interface, SMS, and sometimes, even voice chat.

10. FUTURE SCOPE

Despite being designed for human consumption, chatbots are also capable of communicating and gathering information from other chatbots.
Can be deeloped to chat in local language depending on location access.
